ver, M. D. 153

(Contents continued on page VII.)

ENTERED AT SAN FRANCISCO, CAL. AS SECOND-CLASS MATTER

FEBRUARY AND APRIL NUMBERS NOW READY

Surgical Clinics of J. B. Murphy, M. D.

A brilliant operator, a keen diagnostician, and a forceful teacher—three attributes possessed by Dr. Murphy in the highest degree—make his CLINICS one of the greatest publishing undertakings of modern surgery. And it is just the work you have been waiting for—a permanent record of the teachings of this great surgeon. These are *not* students' clinics, but delivered at Mercy Hospital, Chicago, for physicians only. They are *post-graduate clinics*.

These CLINICS are published *just as delivered* by Dr. Murphy, an expert medical stenographer taking them down verbatim. In this way they retain all that individual force and charm so characteristic of the clinical teaching of this distinguished surgeon.

But the most vital point about these CLINICS is that they are *absolutely fresh*. They are surgery—practical, *applied* surgery—right down to the minute, published practically as soon as delivered. There is no stale matter. Everything is *new, never having appeared in print before*. It is all *live* clinical material. *Subscribe to-day*.

Issued serially, one number every month (six numbers a year). Each issue containing about 130 octavo pages, illustrated. Price per year: \$8.00; in cloth, \$12.00. Sold only by the year.

Send for circular.
